Higher Education evening- 6:30-8:30pm Wednesday 24th April

Year 12 students and parents are all invited to the above event to find out more about Higher Education options as well as Higher and Degree apprenticeships

6:30-8:30pm in the School Hall

The Higher Education Evening at school is relevant to both parents and students. It is crucial for students to hear from university admissions tutors with regards to what they are looking for in an application and how Higher Education is financed.

The responsibility for university finance and debt lies with the student and is only repayable a year after graduation when the student is earning above a certain threshold; currently £25,000 per annum.

It is essential, therefore, that students, as well as parents, have up-to-date information and an understanding of Student finances and the support that is available.

The evening will also highlight the benefits of Higher Education and give an insight into university life by those who have direct experience of studying at university. Universities will give an overview of how to choose courses and what admissions staff are looking for in a good application.

Finally, you will also have the opportunity to hear more about Higher and Degree apprenticeships, which could be a consideration for any students who are unsure about studying at University full-time and who may want to earn and learn instead.

I look forward to seeing you on the evening,

Kind Regards,

A Johnson
